

LPN to Associate Degree Nursing (RN) Mobility Program

Overview

Registered Nurses (RN) are responsible for gathering information about patients using communication, physical assessment, and analytical skills; administering medications; performing invasive and non-invasive procedures; communicating with patients and their family members, peers, and other health care professionals in an effective manner; and teaching patients and their families to promote or restore health. Nurses must respect the rights and dignity of individuals and display exceptional interpersonal skills, sensitivity, and tact with ill, injured, and suffering patients. Nurses must assume a commitment to patient care and the responsibility of life-long learning.
